Questions and Answers:

- 1. Q:** Several areas of legal expertise are listed as required in the RFP. Will proposals be accepted from firms for some, but not all the identified areas?

A: The DC Green Finance Authority seeks a range of legal services during the organization's start-up and launch phase. Refer to Section C.5 for contractor qualifications. The evaluation team may award contracts to multiple firms if firms demonstrate specific expertise in one or multiple areas of practice. Firms that are not able to provide the all identified areas of expertise will not automatically be disqualified and may be considered for a part of the scope of work.
